Q: If my agency wants to propose for more than one area, do we need to submit more than one proposal?

A. For multiple geographic target areas, AHCCCS requires only one proposal with only one set of Exhibits D - I. However, separate Exhibits A-C and Exhibits J-L must be submitted for each area and the area must be clearly identified on each page to avoid any confusion. The submission order for applications to multiple areas is a full set of Exhibits A - L for one of the areas. Then additional set(s) of Exhibits A-C and Exhibits J-L are to be submitted for each addition geographic target area.

Q. Can one umbrella agency apply and be responsible for the statewide success of outreach efforts?

A. The agency would need to apply for each target area separately. This RFP is set up for multiple proposers covering multiple pre-determined areas. Our proposal limited awards to \$50,000 per target area. The idea was for at least five out of the ten target areas to have Outreach Partners. If an agency proposes five or more target areas and responds as directed, the agency potentially could get all the awards. In the Grant AHCCCS is clear that the award shall be made to the most responsive and responsible offeror who is determined to be the most advantageous to the State based on the evaluation factors set forth in the solicitation.
